Annex to Certificate of Balkan Carbon Credit Unit (BCCU) Retirement

No BCCR-Certificate ID Number

- Certificate of Balkan Carbon Credit Unit (BCCU) Retirement:
- Issued by Balkan Carbon Credits Registry
- Buyer Company: **Company name**
- Buyer Company UIC: **Company reg.**
- Quantity of BCCUs: **xxxx** BCCUs
- *Project ID / Serial Number*
- Project name: **xxxx**
- **xxxx** units SN: **xxxx**
- Retirement Date: **dd/mm/yyyy**

Note!

The BCCU Serial Number is a unique identifier assigned to each BCCU for tracking and verification purposes.

The retirement of a BCCU, indicated by the "RETIRED" status, means that the BCCU has been used to offset carbon emissions and is no longer available for further use. The BCCU is retired on behalf of the buyer company, which is **Company name**.

The document also specifies the quantity of BCCUs retired, which in this case is **xxxx** units. This retirement is recorded by the Balkan Carbon Credits Registry, which is responsible for tracking and verifying carbon credits.

The Project ID / SN are also provided. This identifies the specific project that generated the BCCUs. The project was part of a **xxxxxx** sector initiative, hence the prefix "**xxxx**".

The retirement of these BCCUs is significant as it represents the final stage in the lifecycle of a carbon credit. The credits are retired on behalf of the buyer company, indicating that the company has fulfilled its carbon offsetting commitment for the specified period. The retirement is recorded by the Balkan Carbon Credits Registry, which ensures the transparency and integrity of the carbon market.

The retirement of the BCCUs is a crucial step in the carbon credit lifecycle. It signifies the end of their use for carbon offsetting and ensures that the carbon market operates efficiently and transparently.
